

Look Your Best This Holiday Season with MyLooks® Special Holiday Injectable Event

Discounts on Select Injectables Help Patients Look their Best

Florida ([PRWEB](#)) November 27, 2013 -- MyLooks® Inc., a company dedicated to providing high-quality care for cosmetic surgery patients, will help you look your best this holiday season with Holiday Injectable Week.

Holiday Injectable Week is a week-long event dedicated to specials on select non-invasive cosmetic procedures that takes place Monday, December 2 – Friday, December 6, 2013. MyLooks® is hosting the event at each of its clinics, which are located in Boca Raton, Fort Lauderdale, Miami, Orlando and St. Petersburg. The event will allow patients to meet their MyLooks® plastic surgeon, tour the facility, enter to win a raffle and prizes, sample light refreshments and learn about the non-invasive cosmetic treatments offered by MyLooks®.

Sponsored by Medicis Pharmaceutical, the week-long event will feature special offers and discounts on Restylane®, Perlane®, Sculptra Aesthetic® and Dysport® injectables. Medicis is a leading pharmaceutical company that focuses on the treatment of aesthetic conditions. Patients who purchase any of the listed injectables throughout the first week of December will receive 10% off their total purchase.

“Injectables are ideal for patients who want to enhance their appearance through a non-invasive procedure,” said Dr. Lawrence M. Korpeck, [MyLooks® Boca Raton](#). “Fillers such as Perlane® and Restylane® use a hyaluronic acid, which is a naturally occurring sugar-like molecule found in the body. When used appropriately, the hyaluronic acid hydrates the skin and provides volume, smoothing hollowed areas and defining facial contours. This is perfect for those patients who want to restore youth to their appearance”.

To temporarily relieve the appearance of wrinkles, furrows and lines, dermal fillers will restore the skin to a more smooth and taut complexion. As individuals age, the skin’s elasticity wanes and begins to sag, forming creases and wrinkles. Fillers restore volume to these areas to create a smoother appearance and fill deep furrows and fine lines.

Featured [discounted injectables](#) at MyLooks® Holiday Injectable Week:

- Dysport® injections are ideal for severe frown lines between the eyes and forehead and will temporarily immobilize the muscles to smooth wrinkles and creases.
- Sculptra Aesthetic® injectables replace lost collagen deposits that give the skin its smooth and taut complexion. Sculptra® works best when injected in deep folds around the nose and mouth, in lines framing the mouth and chin creases.
- Restylane® and Perlane® injectables are very similar as they both work to smooth skin and define facial contours by adding volume. Perlane® injectables penetrate deeper into the dermis layer of the skin, and are best for more severe facial wrinkles and furrows.
