

MyLooks® Adds Juvèderm Voluma™ XC to List of Cosmetic Injectables Offered

FDA Approved Injectable Filler Now Available at MyLooks® Clinics

([PRWEB](#)) January 06, 2014 -- MyLooks® Inc., a company dedicated to providing high-quality care for cosmetic surgery patients, recently added Juvèderm Voluma™ XC to the list of aesthetic injectable fillers offered at MyLooks® clinics.

Juvèderm Voluma™ XC is the first and only filler approved by the U.S. Food and Drug Administration that is used to correct age-related volume loss in the cheeks and mid-area of the face. Voluma™ XC is a smooth, hyaluronic acid gel designed specifically to restore volume to these areas of the face.

“Voluma™ provides patients with a non-invasive [cosmetic treatment](#) that enhances the skin’s tone and texture,” said Dr. Barry Boyd, the board certified physician from MyLooks® Orlando. “The injectable filler enhances the cheek contour and tone, which is one of the first areas that begin to show signs of age. Voluma™ injectables are an effective means to restore your facial contour.”

The injectables are a combination of hyaluronic acid gel, as well as collagen and elastin proteins, that work together to improve the skin’s texture and elasticity. Collagen is responsible for the skin’s smooth and supple texture, while elastin is a key protein in the skin’s connective tissues that assists the skin in maintaining a taut and appealing tone. As individuals age, the level of collagen and elastin production wanes, and by injecting these tissues directly into the targeted areas of the face, this stimulates further production of collagen and increases the skin’s elasticity.

“We are very pleased to add Voluma™ to our list of injectable fillers offered at MyLooks® clinics,” said Vicky Alex, Chief Operations Officer. “Voluma™ will be offered at MyLooks® Boca Raton and MyLooks® Orlando initially, but we hope to add Voluma™ to all of the MyLooks® clinics’ lists of non-invasive cosmetic procedures”.

Allergan Inc. is a leader in medical aesthetics and dominates the facial tissue market. The company earned its top position in the marketplace with the release of Botox® Cosmetic, Latisse® and Juvèderm® Ultra and Ultra Plus™ [dermal fillers](#). Since attaining FDA approval, Allergan’s volume enhancing Juvèderm Voluma™ XC is added to the company’s list of aesthetic facial injectables. While Juvèderm® Ultra™ and Ultra Plus™ are used to treat moderate to severe facial folds and wrinkles, Juvèderm Voluma™ XC adds volume to lacking areas.

About MyLooks®

Florida-based MyLooks® is a leading cosmetic and surgical service provider dedicated to helping women and men achieve their personal aesthetic goals. Each MyLooks® clinic provides a high-quality total experience, including [plastic surgeons](#) certified by the American Board of Plastic Surgery, procedure customization, a safe and clean environment, patient financing and complimentary consultations.
